At the bottom you will see a button that allows you to upload your work back to your teacher.

Class Charts allows you to upload a wide range of different files depending on what you are working on. You can upload up to 5 different files for the same blended learning task.

Once you click on the link it will take you to your file browser from where you can search for your saved file and click open.

You can also look back to your completed work to see if teachers have left you any feedback on your work.

Always remember to use the messages on Class Charts to ask your teachers for help if you need it!

New staff emails are updated on the website which is another way you can contact teachers and get support.
